Halloween Week Exclusive: Accusonus & Sound Radix team up to offer the Ultimate Drum Mixing Bundles

October 29, 2018 - This Halloween, plug-in gurus [Sound Radix](#) & [Accusonus](#) have teamed up to bring you 2 [exclusive and time-limited bundles](#) that will help you deliver pro-sounding drums on every mix!

- Use the advanced dynamics processing of **Drum Leveler** to add clarity and punch,
- Adjust drum bleed to your taste using the Machine Learning power of **drumatom**,
- Automatically align your microphones and improve phase issues with **Auto-Align**
- Effortlessly sculpt the sound of your drums without compromising musicality with **Beatformer**

Mixing an impressive sounding kit played by a hot drummer is the best-case scenario for every engineer/producer, but sometimes the recordings you get to mix are far from ideal and can suffer from all sorts of issues. Our tools help you get a great sound without stripping all the personality of the performance away. They ensure consistent sound quality without the need for excessive drum replacement and ensure you can still hear all the passion of the original take.

Accusonus & Sound Radix have teamed to offer two exclusive Halloween bundles of pioneering audio plug-ins used by top engineers and producers to get world-class drums on their tracks.
