accusonus

# Accusonus unveils major upgrades to its flagship applications, including ERA Bundle, SFX Cellar and Voice Changer

*Setting a new standard for democratizing content creation*

**Massachusetts, U.S.A.** (September 21st, 2021) - Accusonus announces a major upgrade to all its flagship applications, including ERA Bundle, SFX Cellar and Voice Changer. The new product versions unveil significant innovations both on technology and user experience, allowing for even faster content creation. Here are some highlights:

- The new **ERA Bundle 6** has a revamped **ERA Audio Clean-Up Assistant**. The Assistant now listens to your voice tracks, analyzes their audio content and automatically suggests an audio optimization plugin chain. The new Assistant suggestions are the perfect starting point for those who want to enhance their audio better and faster.
- A new **ERA De-Breath** plugin is added to the ERA 6 Bundle. The plugin automatically detects and removes loud breaths. This allows users to fix voice-over inconsistencies, making voice tracks sound even more natural.
- **SFX Cellar** receives its biggest overhaul to date.
  - A new A.I.-powered search engine allows users to find their sound faster than ever before.
  - An accusonus-exclusive feature is introduced with the "Find Similar" button. This new feature builds upon the accusonus Machine Learning expertise and allows users to create clusters of similar sounds from any sound effect. This makes sound navigation fast, fun and intuitive.
  - Users can now favorite tracks. From shortlisting potential sounds to saving tracks for future use, a personalized library of favorites is now possible. It also makes SFX Cellar easier to use on mobile devices.
  - Accusonus also adds thousands of new sound effects and the library now features new comprehensive categories, better tags and additional metadata for faster browsing.

- ○ Last but not least, the redesigned User Interface is faster and further enhances user experience.
  - Accusonus also adds a new effects pack to the **Voice Changer**. The new Intercoms Pack adds a wide range of presets and voice profiles that can radically transform any voice track. From a smartwatch to a doorbell intercom and from a space station to a jet cockpit, any kind of intercoms' effect is available and easily tunable.
  - All the accusonus products (including ERA Bundle and Voice Changer) are now **M1 compatible**, allowing for even faster performance on new Macs.
  - In addition, the new release introduces a wide range of performance improvements across product lines, many bug fixes, new tracks for Music Cellar, new presets for the Clean-Up Assistant and many more. Accusonus is once again setting a new standard for audio content creation!

**Pricing and Availability**

Accusonus introduces the new *All Access Suite* that replaces the Creator Suite and the Post Production Suite. The *All Access Suite* currently contains the following products: ERA Bundle Pro, Voice Changer, SFX Cellar Premium and Music Cellar (Beta). In the future, all new products that accusonus will release will be added to the *All Access Suite* at no additional cost for existing customers.
